

ASIZ
Att. Prof. Dr. Y.G. Sorokin, president

Harelbeke, 8th of November 2018

Dear Dr. Sorokin,

Concerning : importance of ASIZ and BIOT

On behalf of the members of the European Safety Federation (ESF), I would like to congratulate the organisers of BIOT, and especially the Russian Association of Designers, Manufacturers and Suppliers of Personal Protective Equipment (ASIZ) with the 22nd edition.

The important role of ASIZ, not only in Russia but also internationally, is confirmed by the fact that the Association and the Ministry of Labour and Social Protection organise every year the international BIOT exhibition in Moscow. BIOT is one example of the commitment of ASIZ and its members to continue to work on the improvement of Occupational Health and Safety in collaboration with other stakeholders.

Indeed, the specialised exhibition BIOT continues to grow, both in quantity and quality, and can certainly be considered as a reference for this type of exhibitions. Over the years, the exhibition has developed to be an excellent forum for networking with all relevant stakeholders, including authorities, manufacturers, distributors, certifiers and users of PPE. It is the opportunity for all of them to exchange ideas and to discuss developments in the market, products and services, and this with a Russian, European and even global perspective.

The ESF members and staff wish ASIZ all the best for the coming edition of BIOT and are looking forward to continuing the fruitful cooperation.

Sincerely,

Henk Vanhoutte
Secretary General
